At the ranch 5 miles West & 1 mile North of Hurdsville, ND*

*Offering 40 Simmental & Simm.Angus Bulls
15 Registered Open Females & 13 Black Commercial Open Females
21 outstanding black Simm.Angus Commercial bred heifers AI'd to Haynes Outright due March 10th.*

www.klsrcows.com 701.693.6317 klsrcows@gmail.com

Greetings

On behalf of every one at Kline Simmental Ranch, we would like to welcome all of you to our 2016 Production sale.

We would like thank all of our past customers for their support and belief in our program and genetics. We are committed, every year to earning your business. We greatly value the friendships we have made in the livestock industry and are always eager to meet new people and develop new friendships.

This will be our 4th annual production sale and our 9th year selling seedstock. Every year our registered cow herd grows in number and the quality runs deeper. We have made huge strides in recent years to cull out cows that do not produce or meet our strict standards, and have been very particular when selecting replacements from our herd or investing in new genetics from other producers. Our cow herd is young and full of hard working productive cows that will allow us to provide an outstanding bull offering every year. We will offer females for sale this year for the first time ever. Many of them are backed by great cows that have put sale feature bulls through our past production sales.

Our sale will be held indoors for the 2nd year in a row. The ring area is not heated but the office./sale headquarters is, We will have heaters throughout the barn to help make it more comfortable. Hopefully it is 35 and sunny .

The bulls were weaned September 20th onto a 48 mega cal ration and worked up to a 52 mega cal ration where they will remain until sale day. Average daily gains were calculated from the weights taken on weaning day and the yearling weights taken on January 8th . Scrotal measurements were also taken on January 8th. The bulls as a group averaged a 3.9 lb daily gain and are once again solid not jiggly.

- Bulls will be fed free of charge until mid April delivery
- Bulls will be delivered after a semen test and vet exam by Sheridan Animal Hospital
- Bulls will be delivered free of charge with in 250 miles of the ranch

We strongly encourage livestock insurance on your purchases as KLSR has no legal responsibility to act of God occurrences.

You are always welcome to stop in prior to the sale to view the sale offering. If you are unable to make it to the sale we urge you to visit the ranch prior to sale and discuss your bull needs. We will have sale staff that does an excellent job assisting you on the phone if you wish to bid from home.

Thank you all who attended our 2nd annual customer appreciation supper/pasture tour in September. We plan on hosting that event every year. It is an opportunity for you to get away with the family, view the bull calves , have a meal fresh off the grill and Emily's famous dutch ovens, and enjoy the fellowship of friends and other producers.

We hope to see you on sale day!

Sincerely,

KLSR

Sale Terms and Conditions

Livestock sells under the standard terms and conditions of the American Simmental Association (available upon request).

Kline Simmental Ranch will only be responsible for the purchase price of the animal.

We request that you contact KLSR as soon as possible if there are any issues after delivery.

The owners or anyone involved in the sale assume no legal risk or liability on sale day.

Health

Our cow herd is on an annual vaccination program.

*Birth 2015

Bulls and Heifers received Alpha C&D and Multi Min 90

*May 2015

Bulls and Heifers received Vista Once SQ, Vision 7 w/somnus, and Multi Min 90

Poured with ivermectin

*September 20th 2015

Bull calves received Vista Once SQ, Vision 7 w/somnus, and Multi Min 90

Poured with Ivermectin

Panicure

*October 17th 2015

Heifers received Vista Once SQ, Vision 7 w/somnus,

Poured with Ivermectin

Panicure

*January 8th 2016

Bulls Received Multi Min 90

*January 22nd 2016

Heifers were Bangs Vaccinated, received Express 5 VL5, and Multi Min 90

Sight Unseen Bidding

If you are unable to attend the sale and would like to bid on a bull, please contact us before sale day. Arrangements can be made for you to be on the phone during the sale. If you want to place a bid with one of the sale staff, we will treat your money like it is our own. All sight unseen purchases are full gauranteed

Livestock Insurance

Between the sale and delivery of bulls we will take care of the bulls to the best of our ability, but take no legal responsibility to act of God occurrences, or any injuries due to bulls fighting, riding, or playing. We urge you to take livestock insurance on your investment. Insurance forms will be available on sale day.

Very similar to the C604 heifer. Dam is 877T who raised many daughters that we have retained.
 Her only bull calf KLSR Red Train B82, was our high seller last year to Reimche Land and Cattle.

Load out will be available after the sale for the Females, or we will work with you to get females home as soon as we can after the sale.

Commercial Open Heifer Lot

We are offering 13 black open Simmental and Sim Angus commercial open heifers. We are not keeping any commercial replacements back for ourselves. These girls would be our top picks if we were. They're out of some of our most productive commercial cows and we have many full sisters to them producing for us already. They are sired by two sons of KS Black Diamond and one son of Mr NLC Superior. They will make a great set of front pasture cows. Averaged 808lbs on January 11th.

A video of the group will be posted on our website the end of January.

Commercial Bred Heifer Lot

These bred heifers are the top 21 out of 185 bred heifers. They were hand picked as open heifers from Reimche Land and Cattle of Martin, ND. They have been great supporters of our bull sale. Many of these heifers are backed by KLSR Bulls as well as TNT and Kenner Simmentals. We have bought and sold these heifers the last 3 years and have heard nothing but good feed back on the calves they raise their first year and how they make great cows. They are A.I. bred to Haynes Outright. He topped Haynes Cattle company's sale at \$86,000 and is described by those who have seen him as one of the best Angus bulls to sell in 2015 based on calving ease, growth and phenotype.

A video of the group will also be posted on our website the end of January.

Heifers are due March 10th, full shot program as calves, Bangs vaccinated, pre breeding shots, Virashield 6 VL5 HB, both rounds of Scour Boss 9, and Poured.

Lot 1— 10 head

Lot 2— 11 head

1st buyer has the option to purchase all 21 head.
Heifers will be gate cut into the ring.

Haynes Outright 452
